MT constant-speed propellers are manufactured by MT Propeller Entwicklung GmbH of Alting, Germany. They are used on many certified and experimental airplanes around the world.

Pitch change is accomplished by either an electric or a hydraulic system. The hydraulic system is preferred because the pitch change is about 6 times faster. However, if your engine is not compatible with a hydraulic system, the electric gives you an alternative. Electric props are NOT recommended for aerobatics.

Both two-blade and three-blade models are available.

All MT propellers work with governors sold by Van's.

Propellers include a Kevlar spinner assembly. Blades are white with red tips.

Prices include shipping from Germany to the nearest assembly center (see reverse). The customer is responsible for choosing the appropriate assembly center, assembly charges and shipping charges (if any) between the assembly center and final destination.

Van's Aircraft, Inc. has not had the opportunity to test all MT models, so it is up to the customer to determine the proper propeller application.

MT PROPS FOR THE LYCOMING (I)O-320 ENGINE 150/160 hp

Part number	Blades	Pitch change	Diameter <i>In inches</i>	Weight w/ spinner <i>includes electric control unit but not hydraulic governor</i>	Price
MTV-11-C/183-59	2	hydraulic	72	35	\$7700.00
MTV-12-C/180-119d (57)	3	hydraulic	71	43	\$9160.00
MTV-17-C/183-59	2	electric	72	39	\$9100.00
MTV-18-C/180-119d	3	electric	71	47	\$10,635.00

MT PROPS FOR THE LYCOMING (I)O-360 ENGINE 180/200 hp*

Part number	Blades	Pitch change	Diameter <i>In inches</i>	Weight w/ spinner <i>includes electric control unit but not hydraulic governor</i>	Price
MTV-15-B/183-50	2	hydraulic	72	44	\$8440.00
MTV-12-B/183-59B	3	hydraulic	72	44	\$9160.00
MTV-20-B/183-109 (50)	2	electric	72	48	\$10,420.00
MTV-18-B/183-59	3	electric	72	49	\$10,635.00

**note: MT recommends IO-360 (200 hp) models with sixth order counterweights installed on crankshaft.*

Combined Engine and Propeller Package Discount

Van's Aircraft, Inc. is proud to be able to offer a discount to builders who simultaneously buy an engine and propeller.

This discount is applicable on "bundled" purchases where an Experimental Lycoming engine is purchased in conjunction with a Hartzell, MT or Sensenich propeller direct through Van's Aircraft, Inc. The engine and propeller must be installed on the corresponding airplane as outlined in our OEM agreements. Please see other applicable restrictions on the engine and propeller order forms.

This one-time \$1000.00 discount is available only to RV builders with a Van's customer number and can only be allowed if both the engine and propeller are ordered simultaneously.

The order forms for both propeller and engine must be received together, accompanied by the appropriate 25% deposits, and must include a completed copy of this form. The discount can only be applied to the exact propeller and engine models listed on the order forms. Special order engines and propellers are not eligible, nor are customers who have already obtained an OEM engine or propeller.

Builder Name: _____

Customer Number: _____

RV Model: _____

Engine Type: _____

Propeller Type: _____

Please apply the \$1000 discount to my combined **Engine and Propeller Package**.

I certify that these products will be installed on the airframe customer number above.
